Senior Mobile Engineer with 6+ years of experience building iOS, Android, and React Native apps. I focus on accessible products, secure platforms, and reliable releases.

EXPERIENCE

Senior Mobile Engineer | Essent

Jul 2024 - Present | 's-Hertogenbosch, Netherlands

- Delivered energy consumption insights and payment adjustment features in React Native.
- Implemented WCAG 2.2 AA accessibility, achieving certification by Stichting Accessibility.
- Migrated to Expo, designed CI/CD pipelines, and led the LaunchDarkly feature-flag migration.

Mobile App Developer | Elements Interactive

Jun 2022 - May 2024 | Almere, Netherlands

- Owned Podwalks development and shared mobile infrastructure.
- Implemented secure Android credential sharing for Kiwa eWallet using Bluetooth, NFC, and ISO 18013-5.
- Delivered React Native features and UX improvements for GAMMA & Karwei.

Lead Mobile Developer | Inficare

Jun 2019 - Jan 2021 | Kathmandu, Nepal

- Led delivery of 15+ mobile applications and a team of 10 developers.
- Built iRemit with eKYC and applied OWASP security practices, achieving FSI VAPT approval in Japan, Korea, and Malaysia.

iOS Developer | Inficare

Jan 2018 - Jun 2019 | Kathmandu, Nepal

- Built the company's first iOS apps: Paywell and iRemit.
- Introduced Git and improved mobile development practices.

CORE SKILLS

iOS: Swift, SwiftUI, UIKit, TCA, Combine, Async/Await

Android: Kotlin, Jetpack Compose, Coroutines, MVVM, Room, Ktor

React Native: TypeScript, Expo, React Query, Redux, Reanimated, Storybook

Engineering: Clean architecture, WCAG 2.2, OWASP, CI/CD, Fastlane, Sentry
